

Vercel API Handler Code

Next.js / Vercel Edge & Serverless Function JavaScript Code

Handler Export • JavaScript (ES6+)

```
export default async function handler(request) {
  if (request.method !== "POST") {
    return new Response(
      JSON.stringify({ error: "Only POST requests are allowed" }),
      {
        status: 405,
        headers: { "Content-Type": "application/json" }
      }
    );
  }

  try {
    const { message } = await request.json();

    if (!message) {
      return new Response(
        JSON.stringify({ error: "Message is required" }),
        {
          status: 400,
          headers: { "Content-Type": "application/json" }
        }
      );
    }

    const apiKey = process.env.OPENAI_API_KEY;

    if (!apiKey) {
      return new Response(
        JSON.stringify({ error: "API key is missing in Vercel" }),
        {
          status: 500,
          headers: { "Content-Type": "application/json" }
        }
      );
    }

    const response = await fetch("https://api.openai.com/v1/responses", {
      method: "POST",
      headers: {
        "Content-Type": "application/json",
        "Authorization": `Bearer ${apiKey}`
      },
      body: JSON.stringify({
        model: "gpt-5.6-luna",
        input: message
      })
    });
  }
}
```

```

    })
  });

  const data = await response.json();
